Evidence Shows DuBois Hotels Continue to Disobey Rulings Of The License Court

Eighteen Year Old Boy Testifies to Purchasing Liquor at Four Hotels Without Being Questioned

WHOLESALE AT MAHAFFEY WAS GRANTED

The hearing in the license application of the Hotel Wayne at DuBois continued at the time of the regular license court on account of the illness of Landlord Dunn, was held before Judge Bell yesterday morning.

The Clearfield County Dry Federation was represented by Dr. J. C. A. Borland and Attorneys Swoope and Arnold. In the evidence produced by the dry forces of the county it was brought to light there had been a disregard by several hotels of DuBois for the state license laws and the court's special rules in regard to selling liquor to minors and the "prohibited list." No decision was given in the Dunn application.

Joe Delaney, of Eriton, was one of the important witnesses for the Dry Federation. He is only 18 years of age and yet testified that on Saturday evening, February 17, he had purchased liquor over the bars of the Commercial, DuBois, Windsor and Wayne hotels without questions being asked. Mrs. Paul Dusch was also a witness, testifying that her husband had been served liquor over the bar of the Wayne hotel after she had notified them to stop selling liquor to him.

The Wayne hotel showed a "prohibited list" of 44.

The interests of the applicant were looked after by Messrs. Kelley and Hagerty. No decision was made in the case by Judge Bell.

The wholesale license of Frank Flynn at Mahaffey, was passed upon by Judge Bell yesterday. He granted the license providing the applicant would change his application to read for beer and malt liquors instead of general wholesale.

The application of A. J. Harber for a wholesale license at Blain City was refused.

The license year for 1917 begins Monday next and some of license applicants who have not had their fate decided are spending some very anxious moments these days.

Clearfield Fair Made Excellent Showing In Eyes of The State

Given A No. 1 Rating by Department of Agriculture and Listed With The Best

Harrisburg, Pa. March 1—Only one of the county fairs held in Pennsylvania last year is listed by the state department of agriculture as having given a place of "chief importance" to agriculture. That one is Allentown, one of the most famous in the state and the second largest. Twenty-nine others are in a 'near' class.

York, the state's champion fair in size; Lancaster, Bethlehem and other giants do not make Allentown's class at all. They seem to have devoted much energy to other matters than promoting the cause of agriculture.

Fairs which are listed along with Allentown include those held last fall at Dayton, Towanda, Troy, Clearfield, Conneaut Lake, Titusville, Gratz, Corry, Wattasburg, Stoneboro, Westfield, Mercer, Warren, Arden, Youngwood, Tunkhannock and Hanover.

Fifty-eight of the eighty fair associations report a total attendance of 1,575,041 for 1916 compared with 1,692,474 at the same shows in 1915. Nine associations which in 1915 had a total attendance of 106,300 reported that they held no fairs last year; the reason was mainly on account of the infantile paralysis quarantine.

Twelve fairs showed an increased attendance in 1916 over 1915; many showed an ever break; in those showing a decrease it was not more than a few thousand in any instance.

Fifty six reports show that $87,467.80 was paid out in agricultural premiums. Forty four report that $90,575.32 was paid out in race track premiums. The total premiums by all fairs for all purposes were $178,043.12. Many "agricultural fairs" paid out from two to twenty times as much for track purposes as for agricultural premiums. Thirty associations, however gave the regular premiums the benefit of the long end.

At the Allentown fair the agricultural premiums ran to $16,275 and the race purses to only $7,000. State officials say that a healthier interest in agriculture is constantly being shown by the fairs.

Pupil's Banking Plan Will Be Put In Operation In Clearfield

School Board of Clearfield Boro and Rev. M. A. Ryan of St. Francis School O. K. the Plan

The Educational Thrift Service Banking plan has been approved by all local school officials and will be put into effect immediately. A local bank, the Clearfield Trust company, will act as custodian of the funds which will be turned over to them once a week on the day after the deposits are made to the school authorities.

Purpose of the Plan

The decision to put the plan into effect followed an outline of the plan submitted by J. R. Stout. One of the telling points in his remarks was, "... is stupid to pretend that a man or woman, after they have practiced improvident methods all their lives, should attempt to change them in to thrifty ones. The main idea is to encourage ... boys and girls while they are yet in school. Habits formed then will always remain."

How the Plan Works

One day each school week for a period of ten minutes there will be a "banking" morning. On the afternoon before the teacher or the janitor will place a wire wicket on the teacher's desk, indicating to the students that on the morrow they will be privileged to deposit their funds. Each student will make out his own deposit slip and have his own pass book. The student will ... as cashier, and the teacher, acting as bookkeeper, will post ... the amount in the pupil's individual slip. The amount of money is checked as is passes through the cashier's "window." The pass book and deposit slip, as well as the money, go into a bag. At 9:10 or sooner, just as the banking operation is finished, the bag is taken to the principal's office and with all the bags containing the bank books and money from each school room is placed in the master bag. At 9:30 a representative of the local bank that handles the funds—and does the real banking—entering the amount in the pass books, caring for the funds, paying the interest, etc. arrives and takes the money to the institution. The next day all the pass books are returned to the school.

Japanese Ambassador Denies His Nation Entertained The Idea of Assisting Germany

President Wilson Insists That Congress Delegate To Him Practically Unlimited Power While LaFollette Stands Out Against Him With Threat of Three Day Filibuster

SWISS AMBASSADOR RITTER UNDER FIRE FOR HIS ACTIVITY

Outstanding developments in the crucial international situation became public today.

First—Japanese Ambassador Sato denied all knowledge of Japan's complicity in the German-Mexican plot.

Second—Hints came from high officials today that that Swiss minister Ritter was under suspicion on account of his activities.

Third—The release by the United Press of a letter from their staff correspondent in Tokio telling of the activities of Carranza agents in Japan.

President Wilson took the bull by the horns today following revelations of the German plot against the United States when he informed congress that he would attach his signature to no measure that did not come up to the full requirements of his request in giving him full power to handle the international situation.

He stands flatly behind the senate bill and will sign no measure that has been modified in the least in its provisions.

Despite the gravity of the newest revelation Senator Lafollette said he had material for a three days' filibuster. He is opposed to the extention of the navy bill.

The American steamer Rochester has safely passed through the barred zone. It has entered the mouth of the Gironde river en route to Bordeaux.

Dispatches from Amsterdam quoting Foreign Secretary Zimmerman declare that Germany has ordered that there is to be absolutely no distinction between the vessels in the barred zone. Officials believe that the success of the freighter Orleans in running the "blockade" is the reason for the admonition by the German government to its submarine commanders.

It became known today that the United States is inclined to frown upon some of the activities of Swiss minister Ritter. Some of the administration heads admitted that indications are that Ritter inherited not only von Bernstorff's diplomatic duties but also certain German propaganda plans which will result in a show down between himself and the state department.

First reports came when Ritter disseminated reports that Germany desired a conference to discuss the points involved in the U-boat decree.

In connection with the revelation of the German plot it was strongly hinted that the authorities had lines out to investigate the Cuban insurrection and the food riots in the United States both of which are believed to be the result of international plotting. Hints that the Justice Department might have information concerning the food riots were given out.

Claim Mexico Got Her Supplies from Japan

Correspondent Tells of Seeing Huge Cargo Leave Yokohioma

(By United Press)

New York, March 1.—Advices from Ralph Turner, United Press staff correspondent at Tokio which were mailed January 21, declared that General Carpia, former chief of staff under General Obregon had arrived in Tokio November 23, and left January 1, with a chartered steamer of 4,000 tons aboard which was 27 Japanese gun experts which took on at Yokohoma a cargo of 1,350 tons of machinery. The vessel was bound for Salina, Mexico. It is not believed that it sailed a direct route. Further details are lacking.

TENNESSEE NOW "BONE DRY"

Nashville, Tenn., March 1.—Tennesseans who have not lost their fondness for the cup that cheers, despite restrictions that have made the state virtually "dry" for a long time past, are likely to find themselves up against it as a result of the "bone dry" law which went into effect today. The new law is intended to put an end to all shipments of liquor as beverage into the state. Heretofore the thirsty ones have been permitted to import from outside the state a gallon of liquor at a time for personal or family use.

NEBRASKA'S GOLDEN JUBILEE

Lincoln, Neb., March 1.—Nebraska today rounded out the first half century of its Statehood career, having been admitted to the Union by proclamation of President Johnson 50 years ago today. Many persons still living remember the bitter controversy and acrimonious debates that stirred Congress while the enabling act was under consideration. When the state was admitted Omaha was the seat of government. Later in the same year, however, the capital was moved to a new town in Lancaster county, to which it was decided to give the name of Lincoln in honor of the memory of President Lincoln.

HULL—WILSON

Miss Natalie Hull, of Woodland, and Charles Wilson, son of C. G. Wilson, health officer, returned yesterday from Cumberland, Md., where they were married, much to the suprise of their many friends.

Last evening some of their friends gave them a celebration by serenading them through the streets in an automobile.

N. D. Shoop of Curwensville was a Clearfield visitor yesterday.

Fourteen Year Old Brady Twp. Boy Shot To Death By Promiscuous Serenade Shooters

Ray Hartzfeld Was an Interested Onlooker While Elder Boys Carelessly Discharged Firearms

CORONER INVESTIGATION THIS AFT'RNOON

Ray Hartzfeld, the 14 year old son of Mr. and Mrs. Samuel Hartzfeld, who reside in Brady township, near the Wingert school house, was almost instantly killed last night about 9 o'clock by a bullet which penetrated his stomach, and which bullet was fired by one of a crowd of some twenty young men of the community who were engaged in serenading John Miller and his bride.

The serenade like all similar affairs in the country attracted many of the young people of the community and many of the young men, as is the custom, provided themseles with guns and revelvers as noise makers and there was a great deal of promiscous shooting during the evening.

The unfortunate lad who was participating in the fun got within range of one of the guns and his death brought the affair to a tragic end. County Coroner Dr. J. L. Pollum and District Attorney Welch were promptly notified and they went to the scene and are holding an investigation of the unfortunate occurrence this afternoon.

JEANETTE RANKIN TO SPEAK

New York, March 1.—Miss Jeanette Rankin, Montana's congresswoman-elect, and the first woman to be elected to our national legislat body, is to explain her political views to a New York audience in Carnegie Hall tomorrow night. Much interest is manifested in the address, as it will be Miss Rankin's first public utterances since her election to Congress last November.

All Is Quiet Today In The Shop Men And Yard Workers Strike

Men Stand Firm For Raise in Wages to Meet Increased Cost of Food-Stuffs

There is nothing new to report in the matter of the strike of the car workers in the New York Central yards. Everything is quiet and peaceable and no outbreak of any kind is anticipated.

The men say it is purely a question of principle and a living wage; they must have the increase asked for in order to live and expect the company to come to their terms when their demands are understood and properly presented to the chief officials of the company.

Every man who came out is quietly determined to his stand and will insist on their demands being properly met before returning to work. They have placed the matter of the conduct of affairs in the hands of the committee and will obey orders and mark time until an adjustment is made.

The demands of the men do not appear to be unreasonable and it is sincerely hoped the New York Central can see their way clear to settle the difficulty satisfactory to their employes in the near future and thus continue the long existing good feeling between employers and employees about Clearfield generally.

THURSDAY EVENING, MARCH 1 1917

Pop, please give me a penny for the school bank.

Many a bride who thinks she will soon have her own automobile is often satisfied with a vacuum cleaner.

If some men had a padded cell or two in their brains for violent thoughts and kept them there, they'd get along better.

According to the evidence taken in the Wayne Hotel hearing yesterday the DuBois hotelmen are very unmindful of their own interests.

There is no harm in the time honored country fashion of serenading newly married couples and it is unfortunate that the occasion resulted in the death of a fourteen year old boy. As usual, if early reports are to be believed, Old John Barleycorn played his devilish part in it.

School authorities of Clearfield Borough are to be congratulated on taking up the school banking system. It will be of untold benefit to the pupils in inculcating in them the spirit of thrift and a start toward becoming bank depositors. We predict that many a lollypop will go begging for a purchaser while Johnny and Mary religiously march up to teacher's desk and make a deposit of the princely sum of one cent.

Every town has a liar or two, a smart Alec, some pretty girls, more loafers than it needs, particularly if there is a court house with a warm corridor, a woman who tattles, an old fogy, men who stand on the street corners and make remarks about passing women, a man who laughs an idiotic laugh every time he says anything, men who settle the war in the rear of cigar stores, foretell the weather and one or two who know exactly how to run other people's business, all of whom have made dismal failures of their own.

WHAT THE PUBLIC LEDGER SAYS ABOUT IT

One of our local singing societies has evoked no small degree of public resentment—and very justly—by voting down the proposal to sing "The Star Spangled Banner" at a concert. A much advertised opera singer who used to wrap the flag around her when she sang the same air declined to rise when others sang it some evenings ago, and thereby acquired the additional notoriety she sought. One must call in question the quality of a patriotism which will not even open its mouth for its country in a critical hour. Most of us are able to make a plausible noise, at least for the first verse of "America," and some of us are ready to applaud soldiers and public characters or the fluttering flag on the moving picture film. But in this time when the national anthem and the national emblem ought to mean more than ever, is the pulse of the laggard never to be thrilled or the blood of the sluggard to leap in answer to the patriotic inspiration of sight and sound? The officer in New York who knocked down a man that wiped his hands on the flag did exactly right. But anyone who insults "The Star Spangled Banner" in public or private deserves the like treatment. It will be impossible for our Government, no matter how hard it tries, to make our flag or our anthem utterly despicable among American patriots.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no more hawking, snuffling, mucous discharge or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed up and miserable.

ROSS & WOODS

AS OUT OF DATE AS HORSE CARS

Says corn rings, plasters, razor and eating salves are taboo now.

Godo things should be passed along. It is now said that a few drops of a drug cadlled freezone applied directly upon a tender, aching corn relieves the soreness and soon the entire corn, root and all, can be lifted out without pain.

For little cost a quarter of an ounce of freezone can be obtained from any drug store which is claimed to be sufficient to remove every hard or soft corn or callus from one's feet.

This is a drug recently announced from Cincinnati. It is gummy but dries the moment it is applied and simply shrivels up the corn without inflaming or even irritating the healthy tisue or skin.

Cut this out and lay it on your wife's dresser.

Here's One of the Ways Malicious Lies were Circulated about CAMEL Cigarettes

In an effort to injure the wonderful sale of CAMEL cigarettes, many unprincipled schemes have been resorted to. The following is one of many ways such lies have been put into circulation.

An individual liar would approach a group of men, produce a newspaper, publish in a distant city, and apparently become interested in reading. Suddenly he would claim, "What do you think of this?" would then pretend to read an article about CAMEL cigarettes. In reality, the paper contained no such statement. The individual would at once walk away, carrying the paper with him. A newspaper from a distant city was always used in an effort to cover the tracks of the liar.

Would anyone voluntarily do this kind of unprincipled work? They must have been paid by someone to do it, and all of them should be exposed. An honest man will not knowingly work under the direction of a crooked superior, nor will an honest superior knowingly tolerate a crooked employee. However, some salesmen have told the trade that they had in their possession a newspaper containing a damaging article about CAMEL cigarettes. This was a malicious falsehood, as they had no such newspaper, and when asked to produce it, they were unable to do so.

CAMEL cigarettes are pure and delightful and the most popular cigarettes ever sold at any price. Cigarette smokers will not, for any length of time, permit malicious falsehoods to prejudice them against CAMELS.

"Oh you dear girl," she exclaimed, "I just tried to get you at the house and your mother told me you were in the shops. I wanted you to go to the matinee with me."

When I told her about Marie she was all sorrow. It seems she had suffered from a headache as she had told Marie, but about one o'clock her landlord called her up and asked her if she would take a buyer's wife to the matinee. It meant a great deal to them, and as her head was a little better she braced herself and went, although the next day she had to remain in bed as a result of the ordeal.

You see friends, no matter how plausible the story of the first person may be it is always best to hear the two sides before you pass judgment. Even if the facts as related may be accurate, the motives involved may give an entirely different aspect to the affair.

RETIREMENT OF COL. J. S. ROGERS

Washington, D. C., March 1.—After nearly 39 years of active service as an officer of the United States army, Colonel James S. URGES EVERYONE TO QUICKLY GET ON WATER WAGON

Drink glas of hot water before breakfast to wash out poisons

To see the tinge of health bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try in side bathing for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside bathing will have them both looking and feeling better in every way.

Russia Asks Japan for $100,000,000 Loan

Feels Offended Because Japanese Bankers Ask for Security

(By United Press)

Tokia, Feb. 1—(By Mail)—Because the Japanese bankers have made the unusual demand that they be given security, Japan may have to refuse the request of her ally, Russia, for a new loan of $100,000,000. Should Japan make this loan, it would be the largest ever floated in this country.

Russia proposed the issue to the Japanese government which acquainted the bankers with Russia's overtures. As Russia intended spending the money for munitions and other products purchased in this country, the proposition met with the approval of the government.

Japan has the money to make the loan and its success seemed assured until the Tokio bankers made their demand for security. In view of her position as a first class power and a friend bound in alliance with Japan, Russia believes such guarantee unnecessary and beneath her dignity. Japanese financiers take the attitude, however, that considering the large amounts Russia has already borrowed here and the magnitude of her latest proposal, some form of security should be offered.

BUTTER

Why do restaurants keep up the pretense of serving butter?

In the first place the stuff they serve would be an insult to any self-respecting creamery; and in the second place they don't serve enough of it to make worth while chasing with a knife.

A pat of restaurant butter these days is about as big as a germ and almost as visible. It is so small, in fact, that it can stand in the middle of its chip and be a day's journey from the edge in any direction.

There was a time when restaurant butter covered a multitude of bread.

Evidence Shows DuBois Hotels Continue to Disobey Rulings Of The License Court

Eighteen Year Old Boy Testifies to Purchasing Liquor at Four Hotels Without Being Questioned

WHOLESALE AT MAHAFFEY WAS GRANTED

The hearing in the license application of the Hotel Wayne at DuBois continued at the time of the regular license court on account of the illness of Landlord Dunn, was held before Judge Bell yesterday morning.

The Clearfield County Dry Federation was represented by Dr. J. C. A. Borland and Attorneys Swoope and Arnold. In the evidence produced by the dry forces of the county it was brought to light there had been a disregard by several hotels of DuBois for the state license laws and the court's special rules in regard to selling liquor to minors and the "prohibited list." No decision was given in the Dunn application.

Joe Delaney, of Eriton, was one of the important witnesses for the Dry Federation. He is only 18 years of age and yet testified that on Saturday evening, February 17, he had purchased liquor over the bars of the Commercial, DuBois, Windsor and Wayne hotels without questions being asked. Mrs. Paul Dusch was also a witness, testifying that her husband had been served liquor over the bar of the Wayne hotel after she had notified them to stop selling liquor to him.

The Wayne hotel showed a "prohibited list" of 44.

The interests of the applicant were looked after by Messrs. Kelley and Hagerty. No decision was made in the case by Judge Bell.

The wholesale license of Frank Flynn at Mahaffey, was passed upon by Judge Bell yesterday. He granted the license providing the applicant would change his application to read for beer and malt liquors instead of general wholesale.

The application of A. J. Harber for a wholesale license at Blain City was refused.

The license year for 1917 begins Monday next and some of license applicants who have not had their fate decided are spending some very anxious moments these days.

Clearfield Fair Made Excellent Showing In Eyes of The State

Given A No. 1 Rating by Department of Agriculture and Listed With The Best

Harrisburg, Pa. March 1—Only one of the county fairs held in Pennsylvania last year is listed by the state department of agriculture as having given a place of "chief importance" to agriculture. That one is Allentown, one of the most famous in the state and the second largest. Twenty-nine others are in a 'near' class.

York, the state's champion fair in size; Lancaster, Bethlehem and other giants do not make Allentown's class at all. They seem to have devoted much energy to other matters than promoting the cause of agriculture.

Fairs which are listed along with Allentown include those held last fall at Dayton, Towanda, Troy, Clearfield, Conneaut Lake, Titusville, Gratz, Corry, Wattasburg, Stoneboro, Westfield, Mercer, Warren, Arden, Youngwood, Tunkhannock and Hanover.

Fifty-eight of the eighty fair associations report a total attendance of 1,575,041 for 1916 compared with 1,692,474 at the same shows in 1915. Nine associations which in 1915 had a total attendance of 106,300 reported that they held no fairs last year; the reason was mainly on account of the infantile paralysis quarantine.

Twelve fairs showed an increased attendance in 1916 over 1915; many showed an ever break; in those showing a decrease it was not more than a few thousand in any instance.

Fifty six reports show that $87,467.80 was paid out in agricultural premiums. Forty four report that $90,575.32 was paid out in race track premiums. The total premiums by all fairs for all purposes were $178,043.12. Many "agricultural fairs" paid out from two to twenty times as much for track purposes as for agricultural premiums. Thirty associations, however gave the regular premiums the benefit of the long end.

At the Allentown fair the agricultural premiums ran to $16,275 and the race purses to only $7,000. State officials say that a healthier interest in agriculture is constantly being shown by the fairs.

Pupil's Banking Plan Will Be Put In Operation In Clearfield

School Board of Clearfield Boro and Rev. M. A. Ryan of St. Francis School O. K. the Plan

The Educational Thrift Service Banking plan has been approved by all local school officials and will be put into effect immediately. A local bank, the Clearfield Trust company, will act as custodian of the funds which will be turned over to them once a week on the day after the deposits are made to the school authorities.

Purpose of the Plan

The decision to put the plan into effect followed an outline of the plan submitted by J. R. Stout. One of the telling points in his remarks was, "... is stupid to pretend that a man or woman, after they have practiced improvident methods all their lives, should attempt to change them in to thrifty ones. The main idea is to encourage ... boys and girls while they are yet in school. Habits formed then will always remain."

How the Plan Works

One day each school week for a period of ten minutes there will be a "banking" morning. On the afternoon before the teacher or the janitor will place a wire wicket on the teacher's desk, indicating to the students that on the morning they will be privileged to deposit their funds. Each student will make out his own deposit slip and have his own pass book. The student will ... as cashier, and the teacher, acting as bookkeeper, will post ... the amount in the pupil's individual slip. The amount of money is checked as is passes through the cashier's "window." The pass book and deposit slip, as well as the money, go into a bag. At 9:10 or sooner, just as the banking operation is finished, the bag is taken to the principal's office and with all the bags containing the bank books and money from each school room is placed in the master bag. At 9:30 a representative of the local bank that handles the funds—and does the real banking—entering the amount in the pass books, caring for the funds, paying the interest, etc—arrives and takes the money to the institution. The next day all the pass books are returned to the school.

Japanese Ambassador Denies His Nation Entertained The Idea of Assisting Germany

President Wilson Insists That Congress Delegate To Him Practically Unlimited Power While LaFollette Stands Out Against Him With Threat of Three Day Filibuster

SWISS AMBASSADOR RITTER UNDER FIRE FOR HIS ACTIVITY

Outstanding developments in the crucial international situation became public today.

First—Japanese Ambassador Sato denied all knowledge of Japan's complicity in the German-Mexican plot.

Second—Hints came from high officials today that that Swiss minister Ritter was under suspicion on account of his activities.

Third—The release by the United Press of a letter from their staff correspondent in Tokio telling of the activities of Carranza agents in Japan.

President Wilson took the bull by the horns today following revelations of the German plot against the United States when he informed congress that he would attach his signature to no measure that did not come up to the full requirements of his request in giving him full power to handle the international situation.

He stands flatly behind the senate bill and will sign no measure that has been modified in the least in its provisions.

Despite the gravity of the newest revelation Senator Lafollette said he had material for a three days' filibuster. He is opposed to the extention of the navy bill.

The American steamer Rochester has safely passed through the barred zone. It has entered the mouth of the Gironde river en route to Bordeaux.

Dispatches from Amsterdam quoting Foreign Secretary Zimmerman declare that Germany has ordered that there is to be absolutely no distinction between the vessels in the barred zone. Officials believe that the success of the freighter Orleans in running the "blockade" is the reason for the admonition by the German government to its submarine commanders.

It became known today that the United States is inclined to frown upon some of the activities of Swiss minister Ritter. Some of the administration heads admitted that indications are that Ritter inherited not only von Bernstorff's diplomatic duties but also certain German propaganda plans which will result in a show down between himself and the state department.

First reports came when Ritter disseminated reports that Germany desired a conference to discuss the points involved in the U-boat decree.

In connection with the revelation of the German plot it was strongly hinted that the authorities had lines out to investigate the Cuban insurrection and the food riots in the United States both of which are believed to be the result of international plotting. Hints that the Justice Department might have information concerning the food riots were given out.

Claim Mexico Got Her Supplies from Japan

Correspondent Tells of Seeing Huge Cargo Leave Yokohoma

(By United Press)

New York, March 1.—Advices from Ralph Turner, United Press staff correspondent at Tokio which were mailed January 21, declared that General Carpia, former chief of staff under General Obregon had arrived in Tokio November 23, and left January 1, with a chartered steamer of 4,000 tons aboard which was 27 Japanese gun experts which took on at Yokohoma a cargo of 1,350 tons of machinery. The vessel was bound for Salina, Mexico. It is not believed that it sailed a direct route. Further details are lacking.

TENNESSEE NOW "BONE DRY"

Nashville, Tenn., March 1.—Tennesseans who have not lost their fondness for the cup that cheers, despite restrictions that have made the state virtually "dry" for a long time past, are likely to find themselves up against it as a result of the "bone dry" law which went into effect today. The new law is intended to put an end to all shipments of liquor as beverage into the state. Heretofore the thirsty ones have been permitted to import from outside the state a gallon of liquor at a time for personal or family use.

NEBRASKA'S GOLDEN JUBILEE

Lincoln, Neb., March 1.—Nebraska today rounded out the first half century of its Statehood career, having been admitted to the Union by proclamation of President Johnson 50 years ago today. Many persons still living remember the bitter controversy and acrimonious debates that stirred Congress while the enabling act was under consideration. When the state was admitted Omaha was the seat of government. Later in the same year, however, the capital was moved to a new town in Lancaster county, to which it was decided to give the name of Lincoln in honor of the memory of President Lincoln.

Fourteen Year Old Brady Twp. Boy Shot To Death By Promiscuous Serenade Shooters

Ray Hartzfeld Was an Interested Onlooker While Elder Boys Carelessly Discharged Firearms

CORONER INVESTIGATION THIS AFT'RNOON

Ray Hartzfeld, the 14 year old son of Mr. and Mrs. Samuel Hartzfeld, who reside in Brady township, near the Wingert school house, was almost instantly killed last night about 9 o'clock by a bullet which penetrated his stomach, and which bullet was fired by one of a crowd of some twenty young men of the community who were engaged in serenading John Miller and his bride.

The serenade like all similar affairs in the country attracted many of the young people of the community and many of the young men, as is the custom, provided themseles with guns and revelvers as noise makers and there was a great deal of promiscuous shooting during the evening.

The unfortunate lad who was participating in the fun got within range of one of the guns and his death brought the affair to a tragic end. County Coroner Dr. J. L. Pollum and District Attorney Welch were promptly notified and they went to the scene and are holding an investigation of the unfortunate occurrence this afternoon.

JEANETTE RANKIN TO SPEAK

New York, March 1.—Miss Jeanette Rankin, Montana's congresswoman-elect, and the first woman to be elected to our national legislat body, is to explain her political views to a New York audience in Carnegie Hall tomorrow night. Much interest is manifested in the address, as it will be Miss Rankin's first public utterances since her election to Congress last November.

All Is Quiet Today In The Shop Men And Yard Workers Strike

Men Stand Firm For Raise in Wages to Meet Increased Cost of Food-Stuffs

There is nothing new to report in the matter of the strike of the car workers in the New York Central yards. Everything is quiet and peaceable and no outbreak of any kind is anticipated.

The men say it is purely a question of principle and a living wage; they must have the increase asked for in order to live and expect the company to come to their terms when their demands are understood and properly presented to the chief officials of the company.

Every man who came out is quietly determined to his stand and will insist on their demands being properly met before returning to work. They have placed the matter of the conduct of affairs in the hands of the committee and will obey orders and mark time until an adjustment is made.

The demands of the men do not appear to be unreasonable and it is sincerely hoped the New York Central can see their way clear to settle the difficulty satisfactory to their employes in the near future and thus continue the long existing good feeling between employers and employees about Clearfield generally.

THURSDAY EVENING, MARCH 1 1917

Pop, please give me a penny for the school bank.

Many a bride who thinks she will soon have her own automobile is often satisfied with a vacuum cleaner.

If some men had a padded cell or two in their brains for violent thoughts and kept them there, they'd get along better.

According to the evidence taken in the Wayne Hotel hearing yesterday the DuBois hotelmen are very unmindful of their own interests.

There is no harm in the time honored country fashion of serenading newly married couples and it is unfortunate that the occasion resulted in the death of a fourteen year old boy. As usual, if early reports are to be believed, Old John Barleycorn played his devilish part in it.

School authorities of Clearfield Borough are to be congratulated on taking up the school banking system. It will be of untold benefit to the pupils in inculcating in them the spirit of thrift and a start toward becoming bank depositors. We predict that many a lollypop will go begging for a purchaser while Johnny and Mary religiously march up to teacher's desk and make a deposit of the princely sum of one cent.

Every town has a liar or two, a smart Alec, some pretty girls, more loafers than it needs, particularly if there is a court house with a warm corridor, a woman who tattles, an old fogy, men who stand on the street corners and make remarks about passing women, a man who laughs an idiotic laugh every time he says anything, men who settle the war in the rear of cigar stores, foretell the weather and one or two who know exactly how to run other people's business, all of whom have made dismal failures of their own.

BEWARE DEMOCRATS

You, who attend the inauguration,
Should beware of excess jubilation.
Bryan and grape juice suffered elimination
And your only relief will be intoxication.

WHAT THE PUBLIC LEDGER SAYS ABOUT IT

One of our local singing societies has evoked no small degree of public resentment—and very justly—by voting down the proposal to sing "The Star Spangled Banner" at a concert. A much advertised opera singer who used to wrap the flag around her when she sang the same air declined to rise when others sang it some evenings ago, and thereby acquired the additional notoriety she sought. One must call in question the quality of a patriotism which will not even open its mouth for its country in a critical hour. Most of us are able to make a plausible noise, at least for the first verse of "America," and some of us are ready to applaud soldiers and public characters or the fluttering flag on the moving picture film. But in this time when the national anthem and the national emblem ought to mean more than ever, is the pulse of the laggard never to be thrilled or the blood of the sluggard to leap in answer to the patriotic inspiration of sight and sound? The officer in New York who knocked down a man that wiped his hands on the flag did exactly right. But anyone who insults "The Star Spangled Banner" in public or private deserves the like treatment. It will be impossible for our Government, no matter how hard it tries, to make our flag or our anthem utterly despicable among American patriots.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no more hawking, snuffling, mucous discharge or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed up and miserable.

INAUGURAL THRONGS CROWD WASHINGTON

[illegible] pouring in, literally deluging the city, for the past ten days.

At all times called upon to receive hospitably the nation's guests, the capital, at inaugural times, virtually "keeps open house." Hotels doubled-up, every citizen takes in some visiting acquaintance, and the public buildings, halls and even churches, are filled with cots and beds to house the throngs.

For ten days the town is turned helter-skelter, scrambled, and left,—at the close of the national jamboree [illegible] to stare.

SAVE THE BABIES

These are authentic quotations from the pamphlet on babies by Dr. L. Emmett Holt of Columbia University and Dr. Henry L. K. Shaw of Union University.

Exploring in baby's throat is very important. Hold the bottle while the baby sucks. After he eats place him upright and pat his back to bring up the air he has swallowed. Then place baby with him after his feeding, but let him suck an empty bottle. DON'T rock baby to sleep with the bottle in his mouth.

ROSS & WOODS

AS OUT OF DATE AS HORSE CARS

Says corn rings, plasters, razor and eating salves are taboo now.

Godo things should be passed along. It is now said that a few drops of a drug cadlled freezone applied directly upon a tender, aching corn relieves the soreness and soon the entire corn, root and all, can be lifted out without pain.

For little cost a quarter of an ounce of freezone can be obtained from any drug store which is claimed to be sufficient to remove every hard or soft corn or callus from one's feet.

This is a drug recently announced from Cincinnati. It is gummy but dries the moment it is applied and simply shrivels up the corn without inflaming or even irritating the healthy tisue or skin.

Cut this out and lay it on your wife's dresser.

FIVE MILLION DOLLAR PENSION FUND RAISED

New York, March 1.—Bishop Lawrence of Massachusetts, who sat himself right down in the midst of Wall street one year ago and started to collect a $5,000,000 pension fund from all over the country for superannuated Episcopal clergymen, completed his task today. He has the five million. The pension list will provide not less than $600 annually for old age or disability; and from that up to half of the yearly salary. It will give widows of ministers not less than $300 annually; and orphans $100 annually up to 7 years, $200 from 7 to 14 and $300 frwom 14 to 21.

Here's One of the Ways Malicious Lies were Circulated about CAMEL Cigarettes

In an effort to injure the wonderful sale of CAMEL cigarettes, many unprincipled schemes have been resorted to. The following is one of many ways such lies have been put into circulation.

An individual liar would approach a group of men, produce a newspaper, publish in a distant city, and apparently become interested in reading. Suddenly he would claim, "What do you think of this?" would then pretend to read an article about CAMEL cigarettes. In reality, the paper contained no such statement. The individual would at once walk away, carrying the paper with him. A newspaper from a distant city was always used in an effort to cover the tracks of the liar.

Would anyone voluntarily do this kind of unprincipled work? They must have been paid by someone to do it, and all of them should be exposed. An honest man will not knowingly work under the direction of a crooked superior, nor will an honest superior knowingly tolerate a crooked employee. However, some salesmen have told the trade that they had in their possession a newspaper containing a damaging article about CAMEL cigarettes. This was a malicious falsehood, as they had no such newspaper, and when asked to produce it, they were unable to do so.

CAMEL cigarettes are pure and delightful and the most popular cigarettes ever sold at any price. Cigarette smokers will not, for any length of time, permit malicious falsehoods to prejudice them against CAMELS.

...was nothing more for me to ...said. Marie was ...and I was ...determined to hear what Madge had to say.

Fate played into my hands, for on entering the elevator whom should I run into but Madge herself, as attractive and wholesome as ever.

"Oh you dear girl," she exclaimed, "I just tried to get you at the house and your mother told me you were in the shops. I wanted you to go to the matinee with me."

When I told her about Marie she was all sorrow. It seems she had suffered from a headache as she had told Marie, but about one o'clock her landlord called her up and asked her if she would take a buyer's wife to the matinee. It meant a great deal to them, and as her head was a little better she braced herself and went, although the next day she had to remain in bed as a result of the ordeal.

You see friends, no matter how plausible the story of the first person may be it is always best to hear the two sides before you pass judgment. Even if the facts as related may be accurate, the motives involved may give an entirely different aspect to the affair.

RETIREMENT OF COL. J. S. ROGERS

Washington, D. C., March 1.—After nearly 40 years of active service as an officer of the United States army, Colonel James S. Rogers, lately attached to the 18th Infantry, was placed on the retired list today on his own application. Colonel Rogers is a native of Pennsylvania and was graduated from West Point in 1880. His entire career has been in connection with the infantry arm of the service.

URGES EVERYONE TO QUICKLY GET ON WATER WAGON

Drink glas of hot water before breakfast to wash out poisons

To see the tinge of health bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try internal bathing for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing from the stomach, liver kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside bathing will have them both looking and feeling better in every way.

Russia Asks Japan for $100,000,000 Loan

Feels Offended Because Japanese Bankers Ask for Security

(By United Press)

Tokia, Feb. 1—(By Mail)—Because the Japanese bankers have made the unusual demand that they be given security, Japan may have to refuse the request of her ally, Russia, for a new loan of $100,000,000. Should Japan make this loan, it would be the largest ever floated in this country.

Russia proposed the issue to the Japanese government which acquainted the bankers with Russia's overtures. As Russia intended spending the money for munitions and other products purchased in this country, the proposition met with the approval of the government.

Japan has the money to make the loan and its success seemed assured until the Tokio bankers made their demand for security. In view of her position as a first class power and a friend bound in alliance with Japan, Russia believes such guarantee unnecessary and beneath her dignity. Japanese financiers take the attitude, however, that considering the large amounts Russia has already borrowed here and the magnitude of her latest proposal, some form of security should be offered.

BUTTER

Why do restaurants keep up the pretense of serving butter?

In the first place the stuff they serve would be an insult to any self-respecting creamery; and in the second place they don't serve enough of it to make worth while chasing with a knife.

A pat of restaurant butter these days is about as big as a germ and almost as visible. It is so small, in fact, that it can stand in the middle of its chip and be a day's journey from the edge in any direction.

There was a time when restaurant butter covered a multitude of bread.
